

**Publications on
nano structures for THz frequencies (selection) &
high temperature super conductors (HTSC)**

- [1] H.P. Röser,
Heterodyne spectroscopy for submillimeter and far infrared wavelengths from 100 μm to 500 μm ,
Infrared Physics, Vol. 32 (1991) 385-407
- [2] J. Schmid-Burgk, R. Densing, E. Krügel, H. Nett, H.P. Röser, F. Schäfer, G. Schwaab, P.B. van der Wal, R. Wattenbach,
Extended CO(J=7-6) emission from Orion molecular cloud 1: hot ambient gas, two hot-outflow sources,
Astronomy and Astrophysics, Vol. 215, pp 150-164, 1989
- [3] H. P. Röser, R. U. Titz, G. W. Schwaab, M. F. Kimmitt,
Current-frequency characteristics of submicron GaAs Schottky barrier diodes with femtofarad capacitance,
J. Appl. Phys., Vol. 72 (1992) 3194
- [4] H. P. Röser, H.-W. Hübers, T. W. Crowe, W. C. B. Peatman,
Nanostructure GaAs Schottky diodes for far-infrared heterodyne receivers,
IR Phys., Vol. 35 (1994) 451
- [5] H. P. Röser, H.-W. Hübers, E. Bründermann, M. F. Kimmitt,
Observation of mesoscopic effects in Schottky diodes at 300 K when used as mixers at THz frequencies,
Semicond. Sci. Technol. Vol. 11 (1996) 1328-1332
- [6] H.P. Röser, H.W. Hübers
Schottky barrier diodes for THz applications,
NATO ASI Series E: Applied Sciences – Vol. 334, New Directions in THz Technology, Ed. J.M. Chamberlain, R.E. Miles (1997)
- [7] J. Heiermann, H.P. Roeser,
Semiclassical description of Schottky diode mixer properties at THz frequencies,
Proceedings 16th Intl. Symposium on Space THz Technology, ISSTT, Goeteborg, 2005
- [8] H.P. Roeser, F. Huber, M. von Schoenermark, A.S. Nikoghosyan,
Calculation of the transition temperature of high temperature and bulk superconductors,
32nd Conf. IRMMW-THz and 15th Conf. THz Electronics, Cardiff, UK, Sept. 2007
- [9] H. P. Roeser, F. Hetfleisch, F. M. Huber, M. F. von Schoenermark, M. Stepper, A. Moritz, A. S. Nikoghosyan,
A Link between Critical Transition Temperature and the Structure of Superconducting $\text{YBa}_2\text{Cu}_3\text{O}_{7-\delta}$,
Acta Astronautica Vol. 62/12 (2008) 733-736
- [10] H. P. Roeser, F. Hetfleisch, F. M. Huber, M. F. von Schoenermark, M. Stepper, A. Moritz, A. S. Nikoghosyan,
Correlation between Oxygen Excess Density and Critical Transition Temperature in Superconducting Bi-2201, Bi-2212 and Bi-2223,

Acta Astronautica Vol. 63 (2008) 1372-1375

- [11] H. P. Roeser, F. M. Huber, M. F. von Schoenermark, A. S. Nikoghosyan, M. Toberman,
Fluorine-doped Structure in Iron-Based high Temperature Superconductors,
Acta Astronautica Vol. 64 (2009) 391-394
- [12] F. M. Huber, H. P. Roeser, M. F. von Schoenermark,
A correlation between T_c of Fe-based HT superconductors and the crystal super lattice constants of the doping element positions,
Proc. Intl. Symposium on Fe-Pnictide Superconductors / Tokio / 28-29 June 2008
J. Phys. Soc. Japan. 77, Suppl. C (2008) 142
- [13] H. P. Roeser, F. M. Huber, M. F. von Schoenermark, A. S. Nikoghosyan, M. Toberman, P. Leschinski,
Oxygen deficiency structure in iron-based high temperature superconductor $GdFeAsO_{1-\delta}$,
Acta Astronautica Vol. 64 (9), (2009) 1011 - 1013
- [14] H. P. Roeser, F. M. Huber, M. F. von Schoenermark, F. Hetfleisch, M. Stepper, A. Moritz, A. S. Nikoghosyan,
Doping patterns in N-type high temperature superconductors PLCCO and NCCO,
Acta Astronautica Vol. 65 (2009) 289 – 294, doi: 10.1016/j.actaastro.2009.01.053
- [15] H. P. Roeser, F. M. Huber, M. F. von Schoenermark, A. S. Nikoghosyan,
High Temperature Superconducting with two doping Atoms in La-Doped Bi-2201 and Y-Doped Bi-2212,
Acta Astronautica Vol. 65 (2009) 489 - 494, doi: 10.1016/j.actaastro.2009.02.004
- [16] H. P. Roeser, D. Haslam, F. M. Huber, S. Lopez, M. F. von Schoenermark, A. S. Nikoghosyan, Y. Vernerey,
Doping structure of the high temperature superconductor $La_{2-\Delta}Ca_{1+\Delta}Cu_2O_{6+\delta}$,
Acta Astronautica (2009), doi: 10.1016/j.actaastro.2009.03.022
- [17] H. P. Roeser, F. Hetfleisch, D. T. Haslam, J. S. López, M. Stepper, J. Vernerey, F. M. Huber, M. F. von Schoenermark, A. S. Nikoghosyan,
Hexagonal doping pattern in high temperature superconducting $La_2CuO_{4+\delta}$ formed by regular triangles,
Acta Astronautica, submitted for publication
- [18] H. P. Roeser, D. T. Haslam, F. Hetfleisch, J. S. López, M. F. von Schoenermark, M. Stepper, F. M. Huber and A. S. Nikoghosyan,
Particle-Wave-Line in high temperature superconductors,
submitted for publication
